Their combs consist of a few leasiets of the cocoanut, some of which are artistically made and worn as ornaments behind the ear. The ears of the women are occasionally pterced with a thorn. Small red flowers constitute EAST INDIA the only jewelry in the way of earrings. The Samoan language can hardly be said to be a distinct or iso-lated one. It belongs to that family of speech known as the Malayo-Polynesian, spoken by nearly all the inhabitants of the islands in the north and south Pacific coean, extending from Hawaii to New Zealand, and from PUZZLE.

Ever seeking—but in vain,
Sweet relief from mortal lils:

Vital energy shall start,
E'en to muscle, brain and heart;
Rid the Liver of its load,
Purify the life, the blood,
Intercept disease and death,
Leaving fragrance on thy breath,
Lighten life of half its ills,

TREASURY DEPARTMENT, OFFICE OF INTERNAL REVENUE, 1

WASHINGTON, D. C., January 21, 1880.

Mesers, LAWRENCE & MARTIN, 111 Madison St., Chicago, Illa:

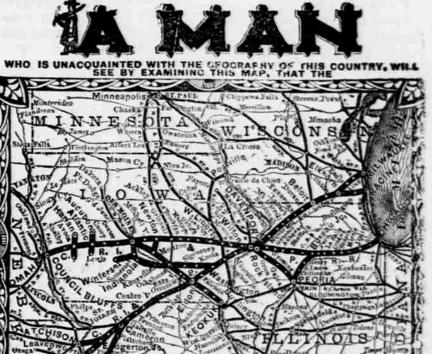

Gentlause: I have received a "cortified formula" giving the ingredients and relative proportions used in the manufacture of an article which you advertise and sell under the name of "Polli ROCK and RYE." This compound, according to your formula, in the opinion of this office, would have a sufficient quantity of the BALSAM OF TOLU to give it all the advantages assribed to this article in pecteral complaints, while the whists and syrup constitute an entulsion randering the compound an agreeable remedy to the patient.

In the opinion of this office, an article compounded according to this formula may properly be classed as a medicinal preparation under the provisions of Schedule A, following section 3,457, U.S. Revised Statutes, and when so stamped may be sold by I raggists, Apothecaries, and Other Persons without rendering them liable to pay special tax as liquir dealers.

Yours Respectfully, (Signed) GREEN, B. RAUM, Commissioner.
